

WILLEMS® INTERNATIONAL MUSIC EDUCATION WORKSHOP

Salamanca

23–26 July 2026

Introduction

It is in Salamanca, capital of the province of Castile and León and a city with over eight centuries of university tradition, that the International Willems® Federation will hold its next summer workshop in July 2026.

The Sirinx School

We are being hosted there, for the fourth time, at one of the oldest Willems® schools in Spain: the Sirinx School, founded in 1986 and therefore celebrating 40 years of continuous activity, offering music education and instrumental courses as well as summer music camps.

Originally, a group of four outstanding musicians sought to establish an artistic, musical and social school, with the aim of welcoming all children and providing them with a solid musical and instrumental education; To this end, the couple Luisa (violinist) and Pablo (flutist) travelled by train from Salamanca to Paris every month for two years to undertake the Willems® training led by Jacques Chapuis; many other teachers at the school followed suit, forming a highly cohesive teaching team that now includes two Willems® teaching specialists.

The practical classes presented during the 2026 course will all be from the Sirinx School.

An inspiring venue

We believe it is highly beneficial for all participants in our summer gathering to come and discover the Willems® method, continue their training or refine their skills in a suitable and inspiring setting.

We look forward to seeing you there!

Béatrice Chapuis-Westphal

Head of Training – International Willems® Federation
